## Industry and Service Sector Earnings Statistics in June 2022

## i. Employee

(i) At the end of June, the total payroll employees were 8,142 thousand, increased by 1 thousand (or $0.01 \%$ ) than the previous month and increased by 121 thousand (or $1.51 \%$ ) than the same month last year.
(ii)From January to June, the total payroll employees were 8,150 thousand, increased by 18 thousand (or $0.23 \%$ ) than the same period last year. Observing the industries, Human Health \& Social Work Activities and Manufacturing increased by 13 thousand and 7 thousand, respectively, while Arts, Entertainment \& Recreation decreased by 6 thousand.

## ii. Average Monthly Earnings

(i) In June, the average regular earnings of full-time employees with Taiwan nationality (excluding the foreigners and part-time employees) was NT $\$ 46,736$, increased by $0.30 \%$ than the previous month and increased by $4.56 \%$ than the same month last year. The irregular earnings such as bonuses and overtime pays was NT\$9,291. After adding the irregular earnings, the average total earnings was NT\$56,027, decreased by $3.83 \%$ than the previous month and increased by $4.02 \%$ than the same month last year.
(ii) In June, the average regular earnings of all employees (including full-time and part-time employees with Taiwan nationality and foreigners) was NT $\$ 44,324$, increased by $0.21 \%$ than the previous month and increased by $4.03 \%$ than the same month last year. The irregular earnings was NT\$8,744. After adding the irregular earnings, the average total earnings was NT $\$ 53,068$, decreased by $3.86 \%$ than the previous month and increased by $3.59 \%$ than the same month last year.
(iii) From January to June, the average regular earnings of all employees was NT\$44,262, increased by $3.02 \%$ than the same period last year. The average total earnings increased by $3.52 \%$ than the same period last year. After removing the price factor, the real regular earnings decreased by $0.11 \%$ than the same period last year, and the real average total earnings increased by $0.38 \%$ than the same period last year.
(iv) From January to June, the gap of total earnings between full-time employees with Taiwan nationality and all employees was NT\$3,455 of which the Manufacturing, Accommodation \& Food Service Activities and Human Health \& Social Work Activities employed more foreign
workers and part-time employees, the difference between them were NT\$5,482, NT\$4,223 and NT\$3,420, respectively.
(v) Since the working hours of part-time employees were fewer, in June, the average regular earnings of part-time employees was NT\$18,062. The regular hourly earnings was $\mathrm{NT} \$ 198$, decreased by $0.50 \%$ than the previous month and increased by $2.06 \%$ than the same month last year. After adding the irregular earnings such as bonuses and overtime pays, the average total earnings was $\mathrm{NT} \$ 18,640$, decreased by $1.85 \%$ than the previous month and decreased by $3.94 \%$ than the same month last year. From January to June, the average regular earnings of part-time employees was NT\$18,784.

## iii. Hours of Work

(i) In June, the working hours of all employees were 167.5 hours, decreased by 0.6 hours than the previous month and increased by 2.3 hours than the same month last year.
(ii) From January to June, the working hours were 162.1 hours, increased by 0.6 hours than the same period last year. Among it, the regular working hours increased by 0.4 hours and overtime increased by 0.2 hours.

Notes: 1.Total monthly earnings of all employees are the total of regular (basic salary, monthly bonus, fixed subsidy and good attendance reward) and irregular (over-time, annul bonus, flexible bonus not paid by month) earnings of employees on payroll, but exclude the non-working reward such as insurance and pension.
2. Number of employees at the end of this month = Number of employees at the end of last month + Number of accession in this month - Number of separation in this month. However, the formula above does not apply on annual average data since the annual employees number is mean of a year not the number at the end of a year.
3. Both Industry \& Services and Services Sectors statistics has covered educational support activities \& other education in Education Industry since 2009 , and has covered Scientific Research \& Development, Pre-primary Education in Education Industry, and Social Work Activities since January 2019. Due to the change in scope of industry coverage, 2018-2019 changes and change rates were not shown.
4. $\mathbb{R}$ denotes revised data, $(P$ denotes preliminary data
